

## Power BI Assignment Topic: Pie Chart – Region Profit Share

---

Objective: Identify which Region contributes the least profit share using a Pie Chart in Power BI.

---

Step 1: Load Data 1. Open Power BI Desktop. 2. Click Get Data → Excel/CSV → Select the Sample Superstore dataset. 3. Load the dataset.

Step 2: Create a Pie Chart 1. Go to the Visualizations pane → select Pie Chart. 2. Drag fields as follows: - Legend: Region - Values: Profit

Step 3: Analyze Profit Share 1. The Pie Chart now shows the profit contribution of each Region. 2. Observe the **smallest slice** in the chart.

✓ Solution: - Based on the Sample Superstore dataset, the **Central Region** contributes the least profit share.

Step 4: Optional – Add Data Labels - Turn on Data Labels in the Format pane to show exact profit values.

Deliverables: - Pie Chart showing Profit share by Region. - Highlight or note the Region with the least profit (Central Region).
